Get in touch if you need help choosing your size.

The Boomerangz size range is based on the MENS/UNISEX US size range. Although they are UNISEX (it says UNISEX on the base) – This means that if you are ordering a **ladies slim** style and you are normally a 9, you will need to order a 7/8 instead. If you are normally a 7/8, you will need to order a 6 and so on... best to measure your foot or an old pair and use the sizing charts provided.
