HOW TO FIND YOUR PERFECT PAIR

STEP 1 - Foot Length

The best way to do this is to stand barefoot on a piece of paper and mark where your longest toe ends.

Measure your foot length in millimetres from the back of your heel to the tip of your big toe.

Repeat this step with both feet, and use the largest measurement to calculate your Blundstone size from the chart above.

STEP 2 - Need Some Width?

For those with a wider foot, we suggest you select a half size up.

Blundstone Half Sizes

When you buy a Blundstone half size, the footbed is exactly the same size as the non-half size. So what's the difference? Our half sizes have a little more leather in the upper of the boot, providing extra room for people with wider feet.

Unisex sizing

All Blundstone lifestyle boots come in a unisex size—even our Women's heels. To find your size, use the "Adult unisex sizes" chart above.

FITTING GUIDE

- Blundstone boots fit true to size.
  While our leathers will stretch and mold to your feet over time, if you prefer a wider fit select a half size up.
- When trying on your Blundstone boots, there should be a slight give in the heel and about half a centimetre of space from the tip of your toe to the front of the boot.
- With repeated use, your Blundstone boots will stretch slightly over the instep, but never stretch lengthwise.
- When you receive your boots make sure you try them on standing, wearing either socks or stockings that you wear with your boots. Please also try these on a carpeted surface so
  that the bottom of the boots is protected.
- The Classics Series are a slightly
  wider fit than the Originals and feature extra insoles that can be used to further adjust fit. All of our Kids' styles have a removable insole which helps you adjust the size for growing feet.
- The Dress Series have a slightly longer fit than other Blundstone styles. Some people go down a half or full size in these styles.
