10 / 12	10	12	45	290
11 / 13	11	13	46	300

## Measuring Advice

Measure at the end of the day when your feet are at their largest.  
Tools: ruler, pen, and a piece of paper.

- 1. Place the paper on the ground and stand on it with your weight slightly forward to make sure your foot is flat.
  - 2. Measure the distance between lines in mm or cm.
  - 3. Draw a line behind your heel and another line in front of your longest toe.
- 4. Find your measurement on the Muck Boot size chart to figure out the best. Round up if your size falls in between.
